

2-DIN HEADUNIT / NAVICEIVER WITH DAB+, USB, BLUETOOTH AND HDMI

The X-402 is a sophisticated 2-DIN infotainer with integrated DAB+ tuner and truly impressive multimedia features. The X-402 can be equipped with the separately available X-MAP22FEU navigation microSD card, to obtain a fully functional naviceiver device. The finely designed X-402 has a high quality capacitive 6.2"/15.7 cm touchscreen display, which scores with its transparent and clear screen. The main VOLUME, HOME and HDMI buttons are designed as touch sensor elements, while illumination color of these control elements is freely adjustable.

XZENT's new top product has all the required entertainment gimmicks on board, starting with a sensitive and well receiving FM RDS tuner and the built-in DAB+ tuner with MOT Slideshow and DAB to DAB service following.

With a CD/DVD drive, two rear USB ports, Made for iPod/iPhone, HDMI input for compatible mobile devices – the X-402 is well equipped for the latest A/V formats. The X-402 also provides screen mirroring of Android based smartphones via optional Wifi dongle (supporting picture and sound).

First class is the integrated Bluetooth hands-free unit, designed for best mobile use, also supporting A2DP music streaming via smartphone.

KEY FEATURES

- 1 year map update subscription

* The navigation software is not part of the set content of the X-402.

Capacitive TFT LCD display

The X-402 has a capacitive 6.2"/15.7 cm touchscreen, in which the main control buttons VOLUME, HOME and HDMI are designed as touch sensor elements.

Simple control architecture

Modern, well-structured on-screen menus specifically designed for a stress-free mobile use, facilitate the intuitive operation of the X-402.

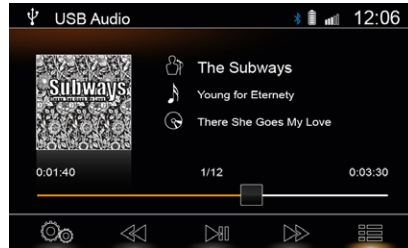

DAB+ tuner

Thanks to its integrated DAB+ tuner with MOT Slideshow, DL-text and DAB to DAB service following, the X-402 provides crystal clear digital radio reception.

RDS FM Radio

The integrated analog FM RDS tuner has a software DSP for clear, interference- and noise-free radio reception with RDS text display.

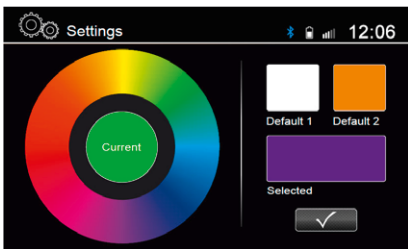

A/V playback

CD/DVD drive, two rear USB ports, Made for iPod/iPhone, HDMI input – the X-402 is ideally equipped for the latest A/V format playback.

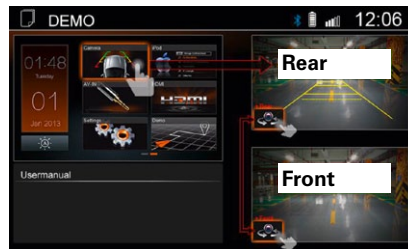

Bluetooth hands-free kit

The Bluetooth hands-free system with internal microphone automatically synchronizes the phone book entries of paired smartphones, for immediate availability.

Variable illumination color

The key illumination can be adjusted in any color tone for optimum compatibility of the X-402 with the night illumination color of different vehicle brand cockpits.

Reversing camera connections

The X-402 has 2 RCA inputs for connecting a front and rear camera with switchable power supply and image control/switching.

HDMI input

The HDMI input allows connection of multimedia devices and smartphones with HDMI output to the X-402 for playback of audio and video content.
