

2-DIN INFOTAINER

Modern infotainment for your car or your motorhome: The XZENT X-227 integrates perfectly into the dashboard of vehicles with a 2-DIN slot, providing the latest entertainment functions. The capacitive 6.5" / 16.5 cm touchscreen display enables simple, intuitive and completely safe control of the device while driving.

You can dock your iPhone directly to the X-227 via USB – the XZENT then supports Apple CarPlay. Make phone calls, use Apple maps, play music or send messages, you can control all supported functions conveniently via Siri voice control or via the large display. Via the AndroidLink function the X-227 seamlessly integrates Android smartphones. AndroidLink mirrors apps on the infotainer display, allowing operation of all app functions directly via the device touchscreen.

The X-227 is equipped with a DAB+ twin-tuner for a relaxed mobile digital radio experience in top quality. The high sensitivity DAB+ tuner scores high for its comfort functions and the resulting ease of use: DAB-DAB Service Following, DLS-text, dynamic radio station, and MOT Slideshow.

Aside of an FM RDS tuner, the X-227 is equipped with two USB 2.0 ports and a microSD card reader, which support playback of audio and video files.

The X-227 comes with two camera inputs (CVBS) offering switched cam power supply and automatic reverse gear controlled cam function. The cam sensor button on the front panel allows to manually invoke and control the cam view.

The up-to-date Bluetooth 4.2 module offers advanced audio post-processing like echo cancelling and noise reduction, as well as intuitive hands-free operation with several comfort functions: search function, import of up to 1,000 phone book contacts with 3 numbers each, etc. The Bluetooth module supports A2DP music streaming with AVRCP of paired smartphones too.

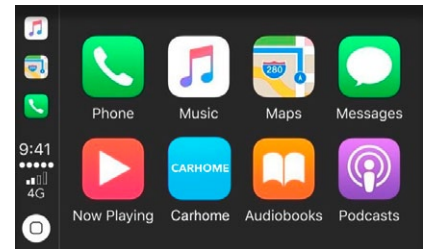

Optimal cockpit integration

The XZENT X-227 harmonises perfectly with the look of many cockpits, since the lighting color of the sensor control panel can be adjusted to the color of the dashboard lighting.

SWC integration

The X-227 offers an input for separately available CAN/stalk interfaces for SWC integration. The X-227 supports FIAT Ducato (X290) steering wheel control buttons ex-works directly – e.g. there is no need to purchase a separate SWC interface.

Apple CarPlay

The X-227 supports Apple CarPlay – a smarter, safer and more entertaining way to use an iPhone in the car. With CarPlay, you can make phone calls, navigate, listen to music, and access messages with Siri voice control.

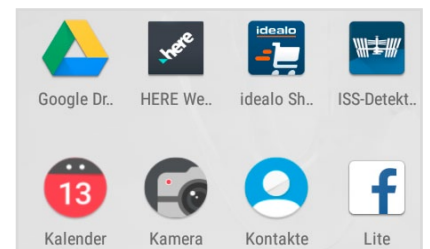

Capacitive TFT LCD display

The X-227 comes with a capacitive 6.5"/16.5 cm TFT touchscreen display. The totally clear and glossy touch panel offers high brightness, clarity and lifelike colour reproduction.

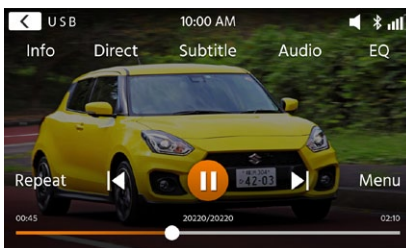

DAB+ twin-tuner

The X-227 features a DAB+ twin-tuner offering MOT Slideshow, dynamic station list, DAB-DAB Service Following and DLS-text. Aside of these comfort features, the clear digital radio reception and the simple operation are additional score points.

AndroidLink

AndroidLink is an integrated advanced app for Android OS smartphones supporting screen mirroring and direct control of the app functions via the touchscreen of the X-227. The use of AndroidLink on the X-227 is a joy because of the large display.

A/V playback

Two rear USB ports, microSD card reader, made for iPod/iPhone, HDMI input and a broad media-file compatibility: The X-227 is well prepared and ideally equipped for the latest A/V format playback.

Bluetooth HFP + music streaming

Hands-free calling with excellent voice quality, search function, phone book synchronization, import of up to 1,000 phone book contacts with 3 numbers each enable safe operation while driving.

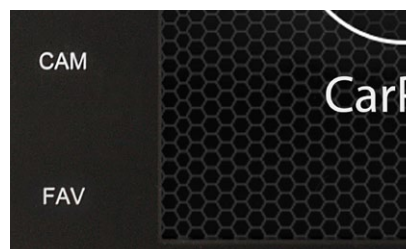

FM RDS tuner

The FM RDS radio receiver of the X-227 integrates a DSP for better sound quality in areas of weaker FM reception. The radio stations can be stored in 18 station presets.

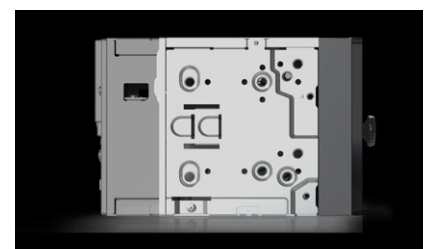

Reversing camera connections

The XZENT X-227 features two RCA video inputs (Cam1/Cam2) for the control of two camera systems with switched power and auto switching logic.

CAM sensor key

In addition to the FAV button configurable via the system settings, the X-227 offers a CAM sensor key on the front panel of the device, allowing manual control of the rear-view camera.

Shorter housing body

The housing depth of the X-227 is reduced by approx. 20 mm compared to other 2-DIN device models. This provides ample space for the connections and cables when installing the device.

KEY FEATURES X-227

FUNCTION HIGHLIGHTS

- 2-DIN infotainer
- Capacitive, touch sensitive 6.5 inch/16.5 cm cm display screen (800 x 400 pixels)
- DAB+ twin tuner with DAB-DAB Service Following, MOT slideshow, dynamic station list and DLS-text
- Apple CarPlay
- Bluetooth 4.2 module with hands-free function and A2DP
- Control of up to two camera systems with auto switching function
- Graphical user interface supporting 10 different EU languages
- Illuminated RGB multicolour sensor field buttons
- Programmable interface for the assignment of multifunction steering wheel keys
- IR remote control

BLUETOOTH

- Bluetooth 4.2 module with hands-free function
- Import of 1,000 phone book entries with 3 phone numbers each
- Memory-resident phone book with direct access to sync'd contacts
- Phone book contact search function via keypad
- Internal Bluetooth microphone, additional input for external microphone*¹
